Dear Mr. Marzani,

On behalf of the AEF I would like to thank RE: Lab for making the recent Plug Fest held at Reggio Emilia such a huge success. The effort and work of RE: Lab staff was exceptional. Of particular mention was Sara Morini who really took great care of all of us and I know that all the attendees were very grateful. We had a record breaking 120 attendees from 10 different countries, and many compliments about the food, location and the facilities. The organization was professionally managed, starting on time and also finishing on schedule. As an educational and communication platform for AEF members to share information and run various tests this Plug Fest would be hard to beat.

We look forward to the continued global expansion of ISOBUS and the launch at AgriTechnica in November of the service and diagnostics database. The conformance test tool will be launched in spring 2012.

I am confident that RE:Lab will continue to play a major role in helping the AEF member companies reach their goals through our joint collaboration.

Sincerely,

Rainer Hofmann,
Chairman, AEFCc: Peter van der Vlugt
Harald Frank
